

# Kyriakos Kyriakatos

## Senior Cloud and AI Solutions Architect

Address: Aegertlistrasse 20, Thalwil, ZH, 8800

Phone: +41 76 517 3371

Email: [kyriakos.kyriakatos@outlook.com](mailto:kyriakos.kyriakatos@outlook.com)

LinkedIn: <https://www.linkedin.com/in/kyriakoskyriakatos-a9>

Twitter: @KyriakosKyriakatos

---

## Professional Summary

Results-driven Senior Cloud & AI Solutions Architect with 25+ years of experience designing and implementing enterprise-scale cloud data platforms and AI/ML solutions. Specialized in Azure cloud architecture, machine learning model deployment, and large-scale data engineering with proven expertise in financial services, telecommunications, and government sectors.

Deep technical expertise in Azure Databricks, ML Operations (MLOps), cloud-native data architectures, and AI model lifecycle management. Demonstrated ability to lead cross-functional teams, drive digital transformation initiatives, and deliver measurable business value through advanced analytics and artificial intelligence solutions.

---

## Core Competencies

### Cloud and AI Technologies

- Cloud Platforms: Azure (Databricks, ML Studio, Data Factory, Synapse Analytics), AWS (S3, EMR, SageMaker)
- AI/ML Frameworks: Azure ML, Spark MLlib, TensorFlow, PyTorch, scikit-learn
- MLOps and Model Deployment: Model versioning, CI/CD pipelines, model monitoring, automated retraining
- Big Data Processing: Apache Spark, PySpark, Spark SQL, Delta Lake, Apache Airflow

### Data and Analytics

- Data Architecture: Cloud data warehousing, data lake design, Lambda/Kappa architectures
- Analytics Platforms: Tableau, Power BI, Oracle BI, real-time analytics dashboards
- Data Engineering: ETL/ELT design, data pipeline orchestration, streaming data processing

## Technical Leadership

- Agile Methodologies: Scrum Master, Requirements Engineering, Sprint Planning
  - Solution Architecture: Enterprise architecture, microservices, API design
  - Team Leadership: Cross-functional team coordination, offshore team management, mentoring
- 

## Professional Experience

### Senior Cloud Data Architect

UBS AG | Zurich, Switzerland | May 2025 to Present

Leading cloud data and AI initiatives for wealth management Fund administration section focusing on an innovative cloud platform enabling rule-based modular modifications for compatibility with up to date fund platforms and protocols.

#### Key Achievements and Responsibilities:

- Architected and implemented Azure Databricks conceptual and logical data model
- Led cloud migration of legacy data objects to Azure cloud-native architecture, processing 50TB+ daily data volumes
- Implemented Delta Lake architecture enabling real-time fraud detection with sub-second latency
- Established data governance framework ensuring UBS Data Governance compliance

Technologies: Azure Databricks, Azure ML Studio, Spark SQL, MLflow, Delta Lake, GitLab CI/CD, Python, PySpark

---

### Cloud Solutions Architect (Contract)

UBS AG | Zurich, Switzerland | *January 2024 – May 2025*

Delivered end-to-end cloud architecture and ML solutions for regulatory reporting and risk management systems.

#### Key Achievements & Responsibilities:

- Designed cloud-native architecture for automated regulatory reporting, reducing processing time by 70%
- Served as Scrum Master for 12-person agile development team, delivering 8 major releases

**Technologies:** Azure Databricks, Oracle SQL, Azure DevOps, Python, Apache Spark

---

## **Senior Cloud Data & AI Architect (Contract)**

**Government Digital Transformation Project** | Jeddah, Saudi Arabia | *September 2023 – January 2024*

Led multi-cloud architecture design and AI solution implementation for national digital transformation initiative.

### **Key Achievements & Responsibilities:**

- Architected hybrid Azure-AWS cloud data platform supporting 500+ concurrent users
- Designed and deployed NLP-based document classification system processing 1M+ documents monthly
- Implemented predictive analytics models for resource planning and optimization
- Established MLOps best practices and model governance framework

**Technologies:** Azure Databricks, AWS SageMaker, Oracle SQL, Power BI, Python, TensorFlow

---

## **Principal Cloud Architect (Contract)**

**Deloitte Consulting** | Athens, Greece | *March 2023 – September 2023*

Led cloud architecture and AI initiatives for multiple enterprise clients across financial services and public sectors.

### **Key Achievements & Responsibilities:**

- Designed Azure-based ML platform architecture for predictive maintenance solutions
- Led technical team of 8 cloud engineers and data scientists
- Implemented Apache Airflow for orchestrating complex ML workflows and data pipelines
- Delivered AI-powered anomaly detection system reducing operational incidents by 40%

**Technologies:** Azure Databricks, Apache Airflow, Oracle SQL, Power BI, Python, Azure ML

---

## **Principal BI & Analytics Architect**

**UBS AG** | Opfikon, Switzerland | *March 2018 – March 2023*

Led enterprise analytics transformation and advanced analytics initiatives for wealth management division.

**Key Achievements & Responsibilities:**

- Architected and implemented Tableau-based analytics platform serving 2,000+ users globally
- Developed Python-based automated reporting framework reducing manual report generation by 90%
- Led continuous improvement program for liquidity management optimization using predictive analytics
- Established center of excellence for advanced analytics and data visualization

**Technologies:** Tableau, Oracle SQL, Python (pandas, scikit-learn), PowerBI, REST APIs

---

**Senior Data Warehouse & Analytics Developer (Contract)**

**UBS AG** | Zurich, Switzerland | *January 2017 – March 2018*

Delivered critical data warehouse enhancements and analytics solutions for compliance and risk management.

**Key Achievements & Responsibilities:**

- Implemented Informatica-based ETL framework processing 10TB+ data daily
- Developed automated data quality monitoring using statistical process control methods
- Created predictive models for operational risk assessment
- Ensured FINMA compliance across all data processing workflows

**Technologies:** Informatica PowerCenter, DB2, Oracle SQL, Python

---

**BI & Analytics Solutions Architect**

**Vifor Pharma AG** | Opfikon, Switzerland | *March 2016 – January 2017*

Led pharmaceutical analytics platform migration and AI-powered sales forecasting implementation.

**Key Achievements & Responsibilities:**

- Migrated pharmaceutical sales data platform from Access to SQL Server, improving performance by 500%
- Designed and implemented custom BI platform using Oracle BI and JavaScript (d3.js)

- Developed machine learning models for sales forecasting and demand prediction using Python and R
- Created interactive data visualizations enabling real-time sales performance tracking

**Technologies:** SQL Server 2012, Oracle BI, JavaScript, d3.js, Python (scikit-learn), R, predictive modeling

---

## **Data Warehouse Solutions Architect**

**Swisscard AECS** | Zürich, Switzerland | *September 2015 – December 2015*

**Key Achievements:** Enterprise architecture design, Informatica development, data modeling, web services implementation

**Technologies:** SQL Server 2012, Informatica PowerCenter 9.2, Sparx Enterprise Architect, C#, Java

---

## **Business Intelligence Architect & Analytics Lead**

**Cembra MoneyBank** | Zürich, Switzerland | *November 2014 – September 2015*

**Key Achievements:** Led BI platform migration (Business Objects XIR2 to BI 4.1), solutions architecture, ETL development, advanced analytics implementation

**Technologies:** Oracle SQL/PL-SQL, SAP Business Objects BI 4.1, Informatica PowerCenter 9.2, ERwin

---

## **BI & Analytics Solutions Architect**

**Ocado Online Supermarket** | Hatfield, London, UK | *June 2014 – November 2014*

**Key Achievements:** Configured enterprise Tableau infrastructure, developed 15 key business KPI dashboards, implemented custom Python automation, data mart design

**Technologies:** Oracle SQL/PL-SQL, Tableau v8/v9, Python 2.7, ERwin, UNIX scripting

---

## **Senior Business Intelligence Architect**

**UPC Cablecom** | Zürich, Switzerland | *January 2012 – May 2014*

**Key Achievements:** Led Tableau implementation (50+ report migrations), data modeling for Sales and Commission data marts, Oracle APEX administration, Scrum Master

**Technologies:** Oracle SQL/PL-SQL, Tableau v8, Oracle Application Express, Oracle 11g, ERwin, Java 7

---

## **Solutions Architect & Data Warehouse Lead**

**Credit Suisse AG** | Zürich, Switzerland | *August 2011 – December 2011*

**Key Achievements:** Credit risk data mart architecture and implementation, ETL design using Informatica, offshore team coordination

**Technologies:** Informatica PowerCenter v8.6, UNIX scripting, Oracle 11g, Java

---

## **Senior Software Engineer**

**UBS Wealth Management** | Zürich, Switzerland | *August 2010 – August 2011*

**Key Achievements:** Software component management, 3rd party tool integration, technical specifications documentation

**Technologies:** Microsoft .NET 3.5, SQL Server 2005, Oracle 11g, VBScript, C# .NET

---

## **Senior IT Consultant**

**Altran AG Consulting Services** | Zürich, Switzerland | *January 2010 – August 2010*

**Key Achievements:** Technical consulting, project proposal management, database solutions

**Technologies:** Informatica 8.1, SQL Server 2005, Oracle 11g

---

## **Solutions Architect & Technical Lead**

**Eurobank** | Athens, Greece | *September 2007 – December 2009*

**Key Achievements:** Led implementation of GATOS Portfolio Management system, requirements engineering, team leadership

**Technologies:** Microsoft .NET 3.5, SQL Server 2005, VB.NET, UNIX scripting

---

## Technology Consultant & Data Architect

**Accenture Technology Solutions** | London, UK | *January 2005 – September 2007*

**Key Achievements:** Presales consulting, solution architecture for major clients (British Telecom, Vodafone, BP)

**Technologies:** Oracle eBusiness Suite v11, Oracle Forms 9i, Oracle Reports 9i, Oracle PL/SQL 8i/9i/10g

---

## Education

### Master of Science in Information Systems

Athens University of Economics and Business | Athens, Greece | *1997 – 1999*

### Bachelor of Science in Mathematics

University of Patras | Patras, Greece | *1989 – 1994*

---

## Technical Proficiency

### Cloud & AI Platforms (Expert Level)

- Azure Databricks, Azure ML Studio, Azure Synapse Analytics
- AWS S3

### Programming & Data Science (Expert Level)

- Python (pandas, NumPy, scikit-learn, TensorFlow, PyTorch)
- SQL/PL-SQL (Oracle, SQL Server, PostgreSQL)
- PySpark, Spark SQL
- R (statistical modeling, data analysis)

### Analytics & Visualization (Expert Level)

- Power BI, Tableau, Oracle BI
- Advanced DAX, custom visualizations
- Real-time dashboards, embedded analytics

### Data Engineering & Architecture (Expert Level)

- Apache Spark, Apache Airflow, Delta Lake
- ETL/ELT design patterns, data pipeline orchestration

- Data lake/warehouse architecture, Lambda architecture
- Informatica PowerCenter, Azure Data Factory

## **MLOps & DevOps (Advanced Level)**

- CI/CD pipelines (GitLab, Azure DevOps)
- Docker, Kubernetes, containerization
- Model versioning, A/B testing, model monitoring
- Infrastructure as Code (Terraform, ARM templates)

## **Additional Technologies**

- .NET Framework, C#, Java
- Business Objects, UNIX scripting
- Microservices architecture, REST APIs

---

## **Certifications & Professional Development**

- **Microsoft AZ-900, PL-300**
- **Scrum Master Certified**
- **ITIL Foundation**
- **Coursera: Machine Learning Specialization**
- **Coursera: Deep Learning Specialization**
- **Coursera: R and Python Programming**

---

## **Languages**

- **English:** Native proficiency
- **Greek:** Native proficiency
- **German:** Advanced proficiency (C1)
- **Italian:** Intermediate proficiency (B1)

---

## **Professional Highlights**

- 25+ years of enterprise technology experience
- 15+ years specializing in cloud and AI solutions
- 8+ years of technical team lead experience
- Led \$50M+ in digital transformation initiatives
- Architected platforms serving 2,000+ users globally
- Managed cross-functional teams of up to 15 professionals
- Delivered solutions across Financial Services, Telecommunications, Government, Pharmaceuticals
